INTRODUCTION

The Canadian Directory of Awards for Graduate Study, published by the Association of Universities and Colleges of Canada, is designed as a bilingual guide to financial assistance for Canadian graduate students. Some of the awards may be of interest to visa students planning to study in Canada.

Information for the biennial directory was collected in the summer of 1987. Award listings have been compiled from the national and international university community as well as the public and private sectors.

How to use:

Awards are printed in the language of instruction of the institution where the award is tenable. In cases where an award is offered for a program of study in both English and French institutions, a bilingual institution, or in an institution that uses a language other than French or English, the award will appear in both the English and the French language sections of the directory.

The Table of Contents is organized by discipline of study. For a complete list of the subject headings within each discipline, please refer to the Subject Index immediately following the Table of Contents.

Two chapters contain awards not covered in specific subject of study sections. Chapter A lists awards that are available for any area of study and research. Chapter H lists all remaining awards not covered in any of the preceeding chapters and generally are multidisciplinary in nature.

Awards for which the publisher has been informed as having Canadian citizenship restrictions are numerically listed in the Appendix. Similar restrictions may apply to some other awards. This should be confirmed prior to application.

For further information on any of the awards mentioned in the directory, please refer to the organization or the institution identified in the "Apply" section of the award listing.

The editor wishes to acknowledge the work of the following staff members on this publication: Ann Allain, Myra Lynn, Hélène Massie, Andrée Quesnel-Bédard, Joan Garnett, Jack Chow and Martine Waisvisz.

INTRODUCTION

Le Répertoire canadien des bourses d'études supérieures, publié par l'Association des Universités et Collèges du Canada, se veut un guide bilingue de l'assistance financière à l'intention des étudiants canadiens des deuxièmes et troisième cycles. Certaines des bourses intéresseront peut-être les étudiants détenteurs d'un visa qui ont l'intention de venir étudier au Canada.

Les renseignements aux fins du répertoire biennal ont été recueillis au cours de l'été de 1987. Les listes de bourses ont été établies à partir de la documentation fournie par la communauté universitaire, nationale et internationale, et par les secteurs privé et public.

Comment utiliser le répertoire:

Les bourses sont décrites dans la langue d'enseignement des établissements où elles sont valables. Là où une bourse est offerte pour un programme d'étude présenté à la fois dans des établissements francophones et des établissements anglophones, ou encore dans un établissement bilingue ou dans un établissement qui utilise une langue autre que le français ou l'anglais, la bourse est inscrite à la fois dans la section de langue française et dans la section de langue anglaise du répertoire.

La Table des matières est établie par domaine d'étude. On trouvera une liste complète des sujets à l'intérieur de chaque domaine ou discipline en consultant l'Index des sujets qui suit immédiatement la table des matières.

Deux chapitres renferment les bourses dont il n'est pas fait mention dans les sections traitant des disciplines particulières. Le chapitre A indique les bourses destinées à n'importe quel domaine d'étude ou de recherche. Le chapitre H renferme toutes les autres bourses qui ne figurent dans aucun des chapitres précédents et qui revêtent généralement un caractère multidisciplinaire.

Les bourses au sujet desquelles l'Éditeur a été informé qu'il existe des restrictions relativement à la citoyenneté canadienne sont inscrites suivant l'ordre numérique, dans l'Appendice. Il pourrait arriver que des restrictions analogues s'appliquent à certaines autres bourses. Il faudrait s'en assurer avant de présenter sa candidature.

Pour obtenir de plus amples renseignements concernant l'une ou l'autre des bourses figurant dans le répertoire, on voudra bien s'adresser à l'organisation ou à l'établissement mentionné dans l'article de l'inscription de la bourse qui se rapporte à la "Candidature".

Le Rédacteur tient à remercier de leur collaboration à l'établissement du présent répertoire, les membres du personnel dont voici les noms: Mlles Ann Allain, Joan Garnett et Hélène Massie, Mmes Andrée Quesnel-Bédard, Myra Lynn et Martine Waisvisz ainsi que M. Jack Chow.
